## COLLECTION

### **Il principio è semplice: verniciare decorando**

Film transfer prestampato con pigmenti organici fotosensibili e resine di cellulosa, avvolto interamente sul profilo. Il metodo di decorazione o stampa utilizzato è quello per sublimazione o stampa a caldo. La sublimazione è il passaggio fisico di una materia dallo stato solido a quello aeriforme senza passare dallo stato liquido. Processo produttivo non inquinante: il trasferimento è pulito e secco, senza residui di materiale colorante o residui chimici, acqua di rifiuto: il personale, i boschi, le montagne e i mari ringraziano.

Corpo: alluminio estruso

Test in nebbia salina: > 1500 ore

### **The principle is simple: coating decorating**

Pre-printed film transfer with organic photo sensitive pigments and cellulose resin, completely wrapped around the profile. The decoration or printing method used is the sublimation or heat printing. Sublimation is the physical process: a material changes from a solid condition into a gas condition without ever turning into a liquid condition. Production process is not polluting: the transfer is clean and dry, no colour material waste, no chemical waste, no water waste: personal, woods, mountains and seas are grateful.

Body: aluminium extruded

Test in saline mist: > 1500 hours

### **Le principe est simple: peindre en décorant**

Le film pour transfert pré-imprimé avec pigments organiques photosensibles et résine de cellulose enveloppe entièrement le profil. La méthode de décoration ou d'impression utilisée est celle de la sublimation ou impression à chaud. La sublimation est le passage physique d'une matière de l'état solide à l'état gazeux sans passer par l'état liquide. C'est un procédé de production non polluant: le transfert est précis et sec, sans résidus de matériels colorants, chimiques ou d'eau: le personnel, les bois, les montagnes et les mers remercient.

Corps: aluminium extrudé

Test dans le brouillard salin: > 1500 heures

### **El principio es sencillo: pintar decorando**

La película plástica ya estampada con pigmentos orgánicos fotosensibles y resinas de celulosa, envuelven completamente el perfil. El método de decoración o impresión utilizado es el de sublimación o impresión a calor. La sublimación es el paso físico de una materia del estado sólido al gaseoso sin pasar por el estado líquido. Proceso productivo no contaminante: él es limpio y seco, sin residuos de material colorante u residuos químicos, agua de residuo: el personal, los bosques, las montañas y los mares agradecen.

Cuerpo: aluminio extrusionado

Test en neblina salinizada: > 1500 horas

### **Das Prinzip ist einfach: lackieren und dekorieren**

Es wird zuerst ein Kunststofffilm mit organischen, lichtempfindlichen Pigmenten und Zellharz bedruckt, mit dem das ganze Profil eingehüllt wird. Die Dekorations- oder Druckmethode nennt man Sublimation oder Warmumformen. Sublimation ist der physische Übergang eines Stoffes vom festen Zustand zum gasförmigen Zustand, ohne einen flüssigen Zustand zu haben. Das ist ein umweltfreundlicher Herstellungsprozess, der sauber und trocken ist, ohne Materialrückstand, Chemierückstand und Abwasser. Die Menschen, der Wald, die Berge und die Meere danken uns dafür.

## Terms & Conditions

### General

- Buyer means the person, firm or company who purchases Goods from the company
- Company means Landa Illuminotecnica S.p.A.. via Rosmini 13/15, 25065 Lumezzane (BS), Italy
- Contract means the Contract between the Buyer and the Company for the sale and purchase of Goods
- Goods means the Goods which the Company is to supply in accordance with these conditions

### Basic of Sale

- The Company shall sell and the Buyer shall purchase the Goods in accordance with these conditions, which shall govern the Contract to the exclusion of any other terms and conditions which the Buyer purports to apply under any purchase order, confirmation order, specification or other document
- No variation to these conditions shall be binding unless agreed in writing by the Company
- Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by the Company shall be subject to correction without liability on the part of the Company.
- Goods supplied may vary in detail from illustrations, drawings, measurements and descriptions set out in the Company sales literature, which are approximate and for guidance only and will not form part of the Contract. Colour finishes will be maintained as accurately as possible but matching cannot be guaranteed. All terminology used in the Company's sales literature is subject to these conditions.

### Orders

- No order submitted by the Buyer shall be deemed to be accepted by the Company unless and until confirmed in writing by the Company
- The Buyer shall be responsible to the Company for ensuring the accuracy of the terms of any order submitted by the Buyer, and for giving the Company any necessary information relating to the Goods within a sufficient time to enable the Company to perform the Contract in accordance with its terms.
- No Goods may be returned to the Company without the Company's prior written consent and must be returned in their original packaging to ensure no damage is sustained during transit. The Buyer shall be liable for the cost of returning the Goods and for any damage to the Goods prior to receipt by the Company of such returned Goods.

### Price of Goods

- The price of the Goods shall be the price listed in the Company's published price list in EURO currency.
- Unless otherwise agreed in writing between the Buyer and the Company, all prices are given by the Company on an ex-works basis, and where the Company agrees to deliver the Goods otherwise than at the Company's premises. The Buyer shall be liable to pay the Company's charges for transport.

### Warranties

- Outdoor lighting fixtures are guaranteed against defects in material or workmanship for a period of two years following the date of delivery ex-works.
- No warranty is granted in connection with faults resulting from improper use, application, normal wear and tear, external influences or use of non-original replacement parts, damage resulting from transportation.
- The Company recommends that the installation of outdoor lighting fixtures is made by a skilful person and that the enclosed assembly instructions are followed and kept for further future maintenance.
- The Company will not assume responsibility for corrosion or other resulting damage to the Goods where they are installed in areas in which fertilizer or salt are present, either in the air or in the soil or where Goods are installed near to chemical plants etc with emissions of heavily polluted air. The Buyer undertakes to inform his customers about the regular maintenance of the products. In particular for the products in stainless steel AISI 316, by means of the technical sheets included in his catalogue, the distributor will inform his customer regarding the specific products (among which also those available from the Company aimed to remove possible colour spots) liable to keep the features of the products unaltered. Claims should be promptly submitted in a written form to the Company together with copy of the purchase invoice and stating the delivery date, description of the faults and quantity of faulty products. Products that are proved to be defective in material or workmanship will be repaired, replaced by the Company within a reasonable period after the claim. Returns of faulty Goods will be accepted by the Company only upon written authorization, adequately despatched and packed with transport prepaid. Extra costs borne by the Buyer in consequence of the faults of the products will not be carried by the Company, if not previously agreed in written form.
- The Company will not assume any responsibility in the following cases: improper assembly, use or maintenance of the products and their incorrect conservation. This guarantee shall not apply to products that have been altered, improperly used or installed or repaired without prior written authorization from the Company. If quality and performance have become less due to the application of accessories not approved by the Company. This guarantee deletes and replaces any other further responsibility arising from the products supplied; in particular the Buyer shall have no right to claim for damages reimbursement (indirect or consequent damages included or profit losses) reduction of prices or resolution of the Contract.
